'How To' Make a Paper Pop-Up House

1.First make the base by cutting this page in half.

2.Fold the base **in half,** the 2 positioning lines should be on the inside.

3.Make the house, **cut around the outline of the house template** - all solid lines.

4.Fold and crease the dashed lines on the house template, fold really well both ways.

Glue

Glue

Glue

Glue

Base

5.Decorate the house by adding colour and detail with pens, pencils and collage.

6.Next Assemble the house walls, to do this glue the end tab and join it to the opposite end to make a box shape.

7.Make the pointed roof, by gluing the roof tab and joining the roof triangles together.

8.Open the base and glue the house into place, glue the tabs and fix them along the 2 positioning lines indicated on the base.

Then open to pop up & close to hide!
